

SELF Online Counseling Information and Supplies

Completing the form below will allow up to 5 users to have access to see information on students from your Institution who completed counseling.

Once we have provided staff with their User ID, staff will be able to select whether to be notified when students complete counseling and the frequency. There are also options to create customized application or borrower self-certification instructions.

(If you have multiple branches with your school, please photo copy this page and include for each branch.)

School Name: _____
